

# VMAP: A new Interface Standard for Integrated Virtual Material Modelling in Manufacturing Industry

Material Data Exchange Interface Standard Community  
Web meeting

13 May 2020 at 17:00 (CET), 1600 (GMT), 11:00 (EDT)

## Summary of Meeting

---

Place: Web meeting

Attendees: Gino Duffett (NAFEMS, VMAP project) - GinoD,  
Klaus Wolf (Fraunhofer SCAI, VMAP Project) - KlausW  
Priyanka Gulati (Fraunhofer SCAI), VMAP project, PriyankaG.

28 people in total (VMAP Project 10, External 18)  
27 entities in total (VMAP Project 9, External 18)

Apologies: 2 people from 2 entities.

Notes: GinoD attempted to make a recording of the meeting for those people who sent apologies but this did not work. Actually the attached presentation covers the meeting very well and there were no technical questions, see point 7 below.

Documents attached:

[1] "ITEA-VMAP\_SC\_20200513\_Community" the presentation made at the meeting.

1. GinoD welcomed all attendees and outlined the meeting Agenda, see [1] page 2:
  - VMAP covid-19 updates [GinoD]
  - VMAP development updates [KlausW, PriyankaG]
  - VMAP Package external use cases [KlausW, PriyankaG]
  - VMAP analytics project update [KlausW]
  - VMAP-SC creation [GinoD]
  - Any Other Business [GinoD]
2. GinoD presented an overview of the VMAP Standards Community (VMAP-SC) size, 141 entities and 42 with confirmed interest (see [1] page 3).

3. GinoD also presented the new VMAP Conference and Meeting dates for 2020; see [1] pages 4-5. He noted that:
  - The new VMAP Conference date is 15-16 October 2020, to be held in Munich, Germany.
  - There is no change to the VMAP Conference agenda since no presenter has withdrawn their paper once advised of the new dates.
  - There is now the possibility of an Exhibition at the Conference so please check the website for more information.
  - A VMAP-SC web meeting could be held on 28 October 2020 to report back on the conference (15-16 October) and the final project review (21 October).
3. PriyankaG presented the current developments for VMAP v.0.5.0, see [1] pages 7-13. These include:
  - Multiple file storage
  - State variable library
  - A common method for storing composite layers
  - Material data storage
  - Generic element type descriptions
4. PriyankaG then presented the VMAP Package v 0.4.0, see [1] pages 14-17, that included:
  - Details of the VMAP Package contents
  - Initial release steps
  - VMAP Integration with other software
5. KlausW presented the concepts within the “VMAP analytics” project that it is hoped will follow VMAP in November 2020, see [1] pages 18-20. The project will extend VMAP Standards to include multi-scale simulation, material databases, cognitive systems and smart machines, analytic and machine learning, digital twins.
6. GinoD then presented the progress and ideas for the VMAP-SC formal creation, see [1] pages 22-27. These are based on those used by FMI/Modelica with their kind permission. He described
  - VMAP-SC structure: Assembly, Board, Technical Groups.
  - Members: Contributing, User, Experts.
  - IP ownership and VMAP-SC formal entity: NAFEMS (not favoured), Separate legal entity (best if finance was available), Shell legal entity (possibly initial step).
  - “Guestimated” budget for 2021
  - Proposed Annual Fee.
  - Timescale for forma creation.

Action: ALL to provide feedback, ideas and/or agreement to GinoD on these proposals.
7. There were no specific technical or organization questions.
8. GinoD thanked everybody for their participation and closed the meeting.

-----end of document-----

# ITEA VMAP

A new Interface Standard for Integrated  
Virtual Material Modelling in Manufacturing Industry

VMAP Standards Community

Gino Duffett (NAFEMS)

Meeting May 13, 2020

# Agenda

1. Welcome [GinoD]
2. VMAP covid-19 updates [GinoD]
3. VMAP development updates [KlausW, PriyankaG]
4. VMAP Package external use cases [KlausW, PriyankaG]
5. VMAP analytics project update [KlausW]
6. VMAP-SC creation [GinoD]
7. Any Other Business [GinoD]
8. End

# 1. VMAP Standards Community

- Standards Community database
  - 141 entities, 81% external to project
  - 42 confirmed interest, 55% external to project
- Collaborations
  - European Materials Modelling Council
    - Material ontologies
  - ProSTEP
    - Engineering data standards
  - AFNet
    - Standardization days

# 2. VMAP International Conference

- VMAP International Conference on Interoperability
  - 15-16 October 2020 in Munich-Taufkirchen, Germany
  - Starts on 15 October after lunch, session overlap with NAFEMS DACH conference
  - 35 presentations, 34 registrations (69 in total)
  - Includes project Open Day as Poster Wall (screens + posters)
    - originally planned to take place at Final Project Review
  - EXHIBITION space
  - Presenters notified
  - NO Agenda changes to date

Agenda (preliminary) – Wednesday, 13 May

13:00	13:00	13:00	13:00
13:15	13:15	13:15	13:15
13:30	13:30	13:30	13:30
13:45	13:45	13:45	13:45
14:00	14:00	14:00	14:00
14:15	14:15	14:15	14:15

## 2. VMAP Community meetings

Today

Probably not

Presentations & Poster wall

Under discussion

- Web meeting, 13 May 2020
- Web meeting, week starting 12 Sept 2020
  - Planned
- VMAP Conference 15-16 October 2020
  - possible face-to-face meeting
  - includes Final project Open Day information
- Web meeting, 28 October 2020
  - Report back of Conference and final Project Review

# Agenda

1. Welcome [GinoD]
2. VMAP covid-19 updates [GinoD]
3. VMAP development updates [KlausW, PriyankaG]
4. VMAP Package external use cases [KlausW, PriyankaG]
5. VMAP analytics project update [KlausW]
6. VMAP-SC creation [GinoD]
7. Any Other Business [GinoD]
8. End

### 3. VMAP development updates

---

- VMAP Development – v.0.5.0
  - Multiple File Storage
  - Variable Library
  - Section Types
  - Material data storage
  - Generic Element Type Descriptions

## 3. VMAP Development - v.0.5.0

- VMAP Standard I/O Library v.0.5.0
  - Multiple File Storage
  - Variable Library
  - Section Types
  - Material data storage
  
- VMAP Documentation v.0.5.0
  - All new features
  - More Tutorials
  - Interoperable Test Cases
  - Version release May 2020 pdf & html

## ■ Variables in Documentaion

- List of commonly used state variables will be defined
- Users can aslo define their own variables

### 10.1 A

#### AREAL-DENSITY

Definition: Areal density of a 2D object is defined as mass per unit area.  
Dimension:  $ML^{-2}$ , SI Unit:  $kg \cdot m^{-2}$   
Subtypes defined in VMAP: FIBRE  
Nomenclature:  
AREAL-DENSITY,  
AREAL-DENSITY\_FIBRE

#### ABSOLUTE-HUMIDITY

Definition: Measures the weight of water vapour per unit volume of air.  
Dimension:  $ML^{-3}$ , SI Unit:  $g \cdot m^{-3}$   
Subtypes defined in VMAP: –  
Nomenclature:  
ABSOLUTE-HUMIDITY

#### AXIAL-STIFFNESS

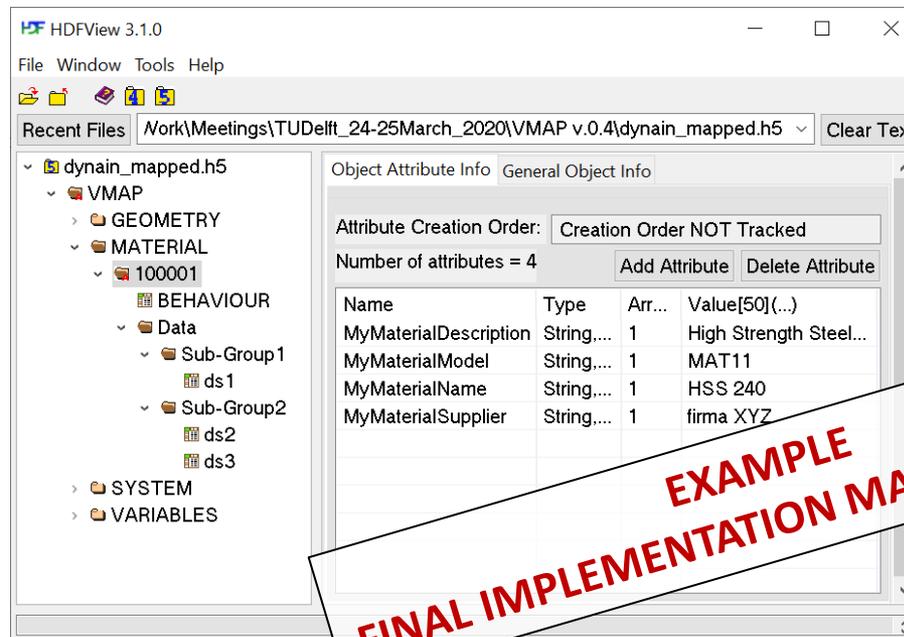

Definition: It is the extent to which an object resists deformation in response to an applied force (tension or compression).  
Dimension:  $MT^{-2}$ , SI Unit:  $N \cdot m^{-1}$   
Subtypes defined in VMAP: –  
Nomenclature:  
AXIAL-STIFFNESS

- Section Types
  - To support the Composite layer storage
  - Other Shell Elements with variable thickness
  - Section Type data list:

```
int          myIdentifier;      /**< Unique identifier of the section */
const char*  myName;           /**< The name of the section */
int          myType;           /**< Type of section, see eSectionType */
int          myMaterial;       /**< The material id of the section */
int          myCoordinateSystem; /**< The reference coordinate system of the section */
int          myIntegrationType; /**< The integration type of the section */
int          myThicknessType;  /**< The thickness of the section */
```

# v.0.5.0 - Material Data Storage

- Material Data Storage
  - Initial data will be stored in XML files and then can be transferred to VMAP
  - Here is a sample representation in HDFView

The screenshot shows the HDFView 3.1.0 interface. The left pane displays a tree view of the file structure: `dynain_mapped.h5` contains `VMAP`, which includes `GEOMETRY`, `MATERIAL`, `SYSTEM`, and `VARIABLES`. Under `MATERIAL`, there is a group `100001` containing `BEHAVIOUR` and `Data`. `Data` is further divided into `Sub-Group 1` (with `ds1`) and `Sub-Group 2` (with `ds2` and `ds3`).

The right pane shows the 'Object Attribute Info' for a selected object. It displays the 'Attribute Creation Order' as 'Creation Order NOT Tracked' and the 'Number of attributes = 4'. Below this is a table of attributes:

Name	Type	Arr...	Value[50](...)
MyMaterialDescription	String,...	1	High Strength Steel...
MyMaterialModel	String,...	1	MAT11
MyMaterialName	String,...	1	HSS 240
MyMaterialSupplier	String,...	1	firma XYZ

**EXAMPLE  
FINAL IMPLEMENTATION MAY BE DIFERENT**

- Element Type Description
  - Initial Idea - Store the solver specific Element type description

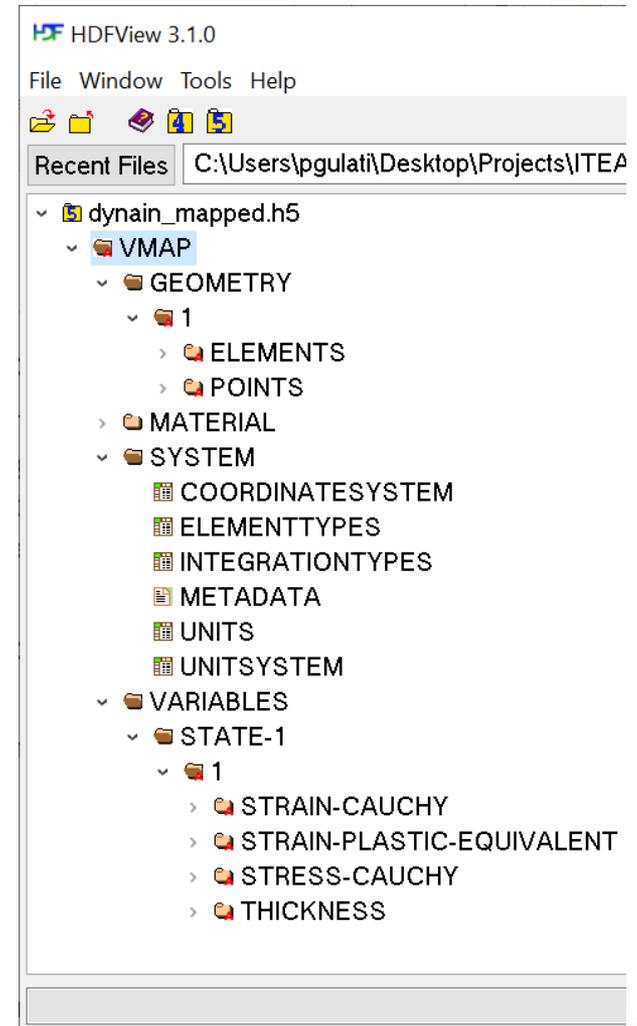

myTypeName	myTypeDescription
VMAP_ELEM_3D_TRIANGLE_3	Abaqus: S3R
VMAP_ELEM_3D_QUAD_4	Abaqus: S4R
VMAP_ELEM_3D_QUAD_4	Abaqus: S4

- VMAP v.0.5.0 - Store a more generic type description

myTypeName	myTypeDescription
VMAP_ELEM_3D_TRIANGLE_3	Thermal
VMAP_ELEM_3D_QUAD_4	Structural
VMAP_ELEM_3D_QUAD_4	Acoustic

## 4. VMAP Package v.0.4.0

- VMAP User Guide
  - Documentations
    - VMAP Standard Specifications
    - VMAP General Document
  - Licenses
    - BSD
    - ULA
- *VMAP Library*
  - API
  - Wrappers (only Document)
- *VMAP Test Cases*
  - 01\_BreakForming\_MetalBracket

## 4. VMAP Package v.0.4.0

- External use cases
  - 8 primary contacts
    - discussions starting to deliver VMAP Package
  - 26 requests for implementation
    - communicated but on hold until tested by primary contacts
  - 59 document web downloads
  
- Webpage for full VMAP Package
  - Documentation, IO Library, Wrappers, Licences
  - In progress
  - Launch date to be decided

# 4. Status: VMAP Standard Interface Integration

Legends:

supported

In Progress

planned

Softwares	Platforms	Type Integration	VMAP Import	VMAP Export
DYNAmore Envyo		Integrated	v 0.4.0	v 0.4.0
4a FIBERMAP/MICROMECC		Integrated	v 0.4.0	v 0.4.0
Beta CAE Ansa		Integrated	v 0.4.0	v 0.4.0
Beta CAE Epilyis			v 0.4.0	v 0.4.0
SCAI mpCCI Mapper		Integrated	v 0.4.0	v 0.4.0
inuTech Diffpack		External Wrapper	v 0.4.0	v 0.4.0
inuTech OOT			v 0.4.0	v 0.4.0
MSC Marc		External Wrapper	v 0.4.0	v 0.4.0
Simcon CADMould		Integrated	v 0.4.0	v 0.4.0
ESI Virtual Env.		External Wrapper	v 0.4.0	v 0.4.0
e-Xstream Digimat		Integrated	v 0.4.0	v 0.4.0

# 4. Status: VMAP Standard Interface Integration

supported

In Progress

planned

Softwares	Platforms	Type Integration	VMAP Import	VMAP Export
Simulia Abaqus		External Wrapper	v .4.0	v 0.4.0
Openfoam		External Wrapper	v 0.4.0	v 0.4.0
Autodesk Moldflow		External Wrapper	v 0.4.0	v 0.4.0
ANSYS		External Wrapper	v 0.4.0	v 0.4.0
Autodesk FUSION		Integrated	First Discussions are Ongoing	
Transvalor		Integrated	First Discussions are Ongoing	

# 5. VMAP analytics Vision

# 5. VMAP analytics Partners

## **Austria**

1. 4a engineering

## **Belgium**

1. *e-Xstream (self-funded)*

## **Sweden**

1. Gemit Solutions
2. Morgardshammar
3. Kanthal
4. Outokumpu Fagersta Steel
5. Swerim

## **Germany (self funded)**

1. Dr Reinold Hagen Stiftung
2. Fraunhofer SCAI
3. Fraunhofer IWMS
4. KIT Fast
5. Rikutec
6. Simutence

## **Switzerland**

1. Key2Metals (self-funded)

## **UK**

1. Ansys Granta (self-funded)

## **Germany/Spain**

1. NAFEMS (partner funded)

## **Netherlands**

1. Eindhoven University
2. InSumma
3. KE-works
4. KxA Software Innovations
5. LifeTec Group BV
6. Philips Consumer Lifestyle
7. Philips Electronics Nederland
8. Reden BV
9. University of Groningen

## **Turkey**

1. ACD Bilgi islem
2. Alpata technology
3. Argedor Information Tech.
4. Inovasyon Muhendislik
5. Karel Electronics
6. Tubitak

# 5. VMAP analytics Status

## ITEA

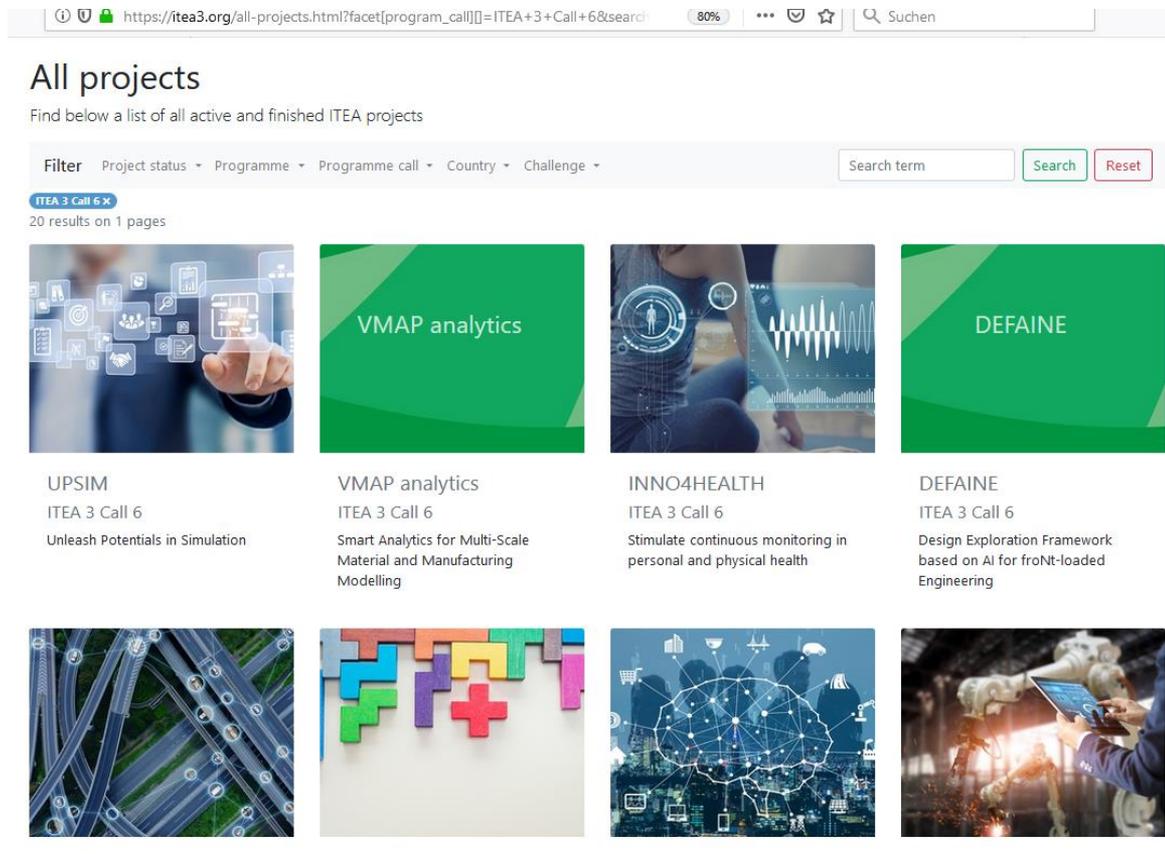

- Project has been labelled by ITEA on March 21, 2020

## National Funding Applications

- Consortia from Austria, Netherlands, Sweden, and Turkey wait for acceptance by national PAs
- Consortia from UK, Belgium, Switzerland, and Germany participate as self-funded partners

## Project Start

- Is planned for Nov. 2020

The screenshot shows a web browser displaying the ITEA3 project portal. The URL is [https://itea3.org/all-projects.html?facet\[program\\_call\]=ITEA+3+Call+6&search](https://itea3.org/all-projects.html?facet[program_call]=ITEA+3+Call+6&search). The page title is "All projects" and it contains a search bar with "Suchen" and a "Reset" button. Below the search bar, there are filters for "Project status", "Programme", "Programme call", "Country", and "Challenge". The search results show 20 results on 1 page. The first row of results includes:

- UPSIM**: ITEA 3 Call 6, Unleash Potentials in Simulation. Image shows a person interacting with a digital interface.
- VMAP analytics**: ITEA 3 Call 6, Smart Analytics for Multi-Scale Material and Manufacturing Modelling. Image shows a green background with the text "VMAP analytics".
- INNO4HEALTH**: ITEA 3 Call 6, Stimulate continuous monitoring in personal and physical health. Image shows a person using a device with a circular graphic overlay.
- DEFAINE**: ITEA 3 Call 6, Design Exploration Framework based on AI for froNt-loaded Engineering. Image shows a green background with the text "DEFAINE".

The second row of results includes:

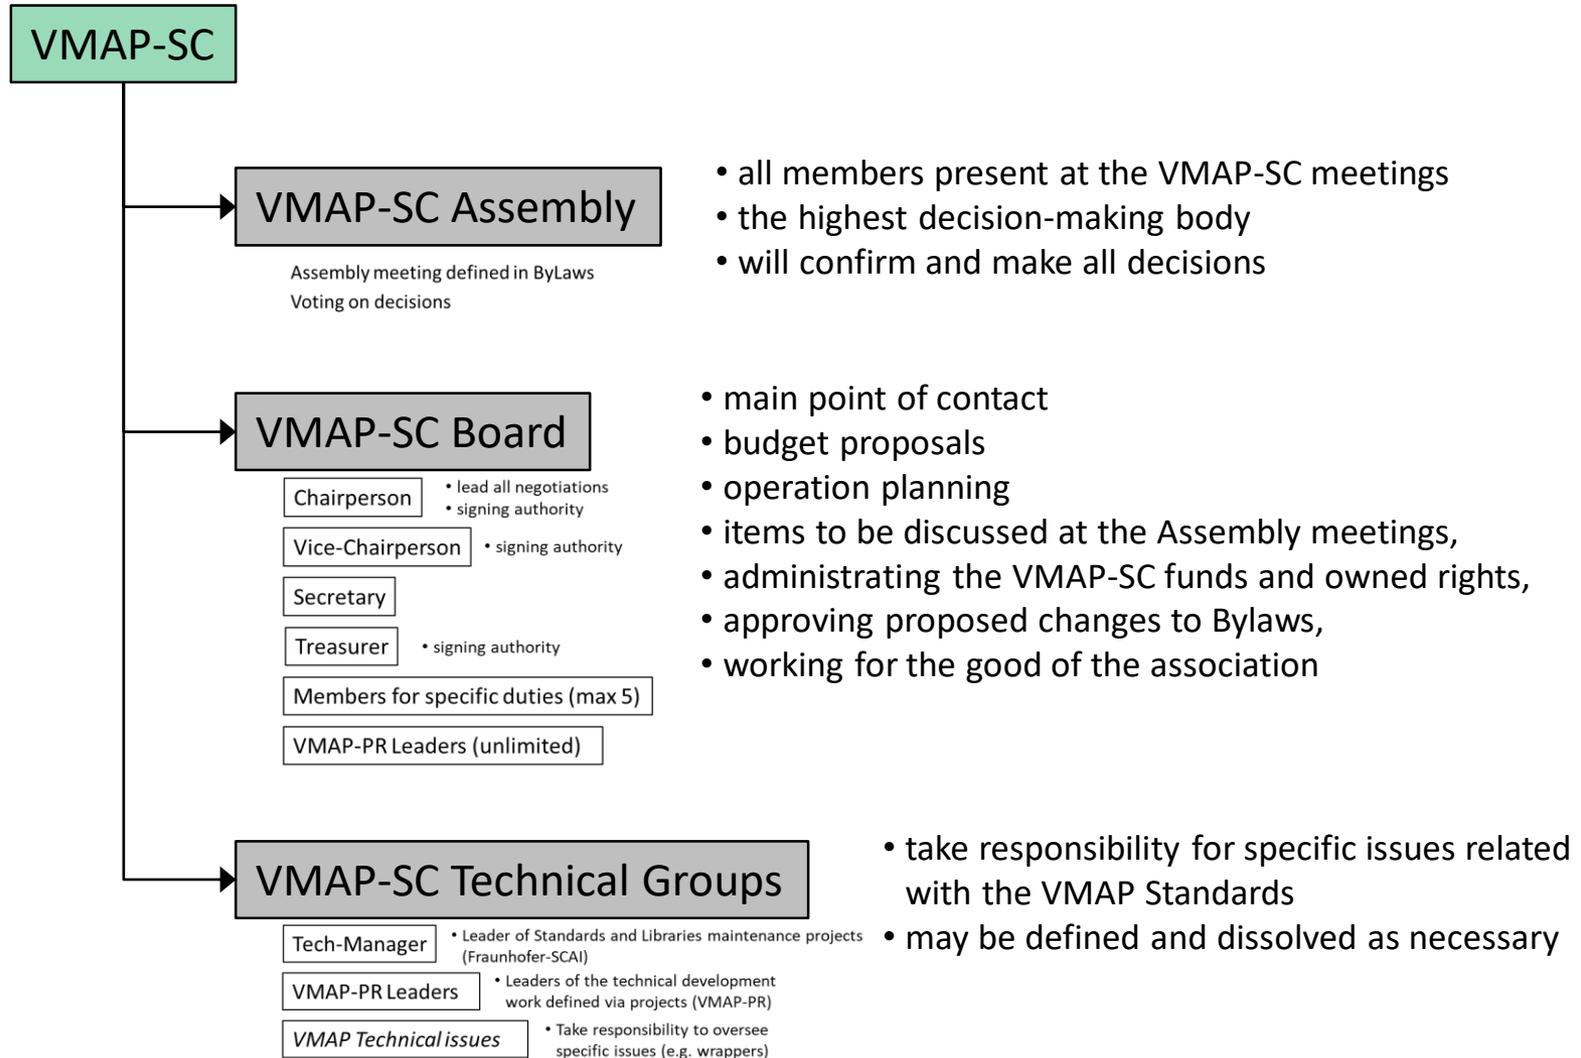

- An image of a highway interchange.
- An image of colorful puzzle pieces with a red cross.
- An image of a network diagram with nodes and connections.
- An image of a person holding a tablet in a futuristic setting.

# Agenda

---

1. Welcome [GinoD]
2. VMAP covid-19 updates [GinoD]
3. VMAP development updates [KlausW, PriyankaG]
4. VMAP Package external use cases [KlausW, PriyankaG]
5. VMAP analytics project update [KlausW]
6. VMAP-SC creation [GinoD]
7. Any Other Business [GinoD]
8. End

# 6. VMAP-SC... Structure

## 6. VMAP-SC... Members

### VMAP-SC

- **Contributing members** ———— | *VMAP Contributor License Agreement (CLA)*
  - actively working on VMAP Projects
  - carrying out VMAP maintenance (via VMAP Projects)
- **User members** ———— | *VMAP User License Agreement (ULA)*
  - utilizing the VMAP Standards and VMAP IO Software Libraries within their software or simulation processes wishing to maintain a close collaboration with VMAP-SC
- **Expert members**
  - expert members promoting the VMAP Standard (marketing, articles, etc.)
  - those contributing to the maintenance (software, documentation, etc.) of the VMAP Standard

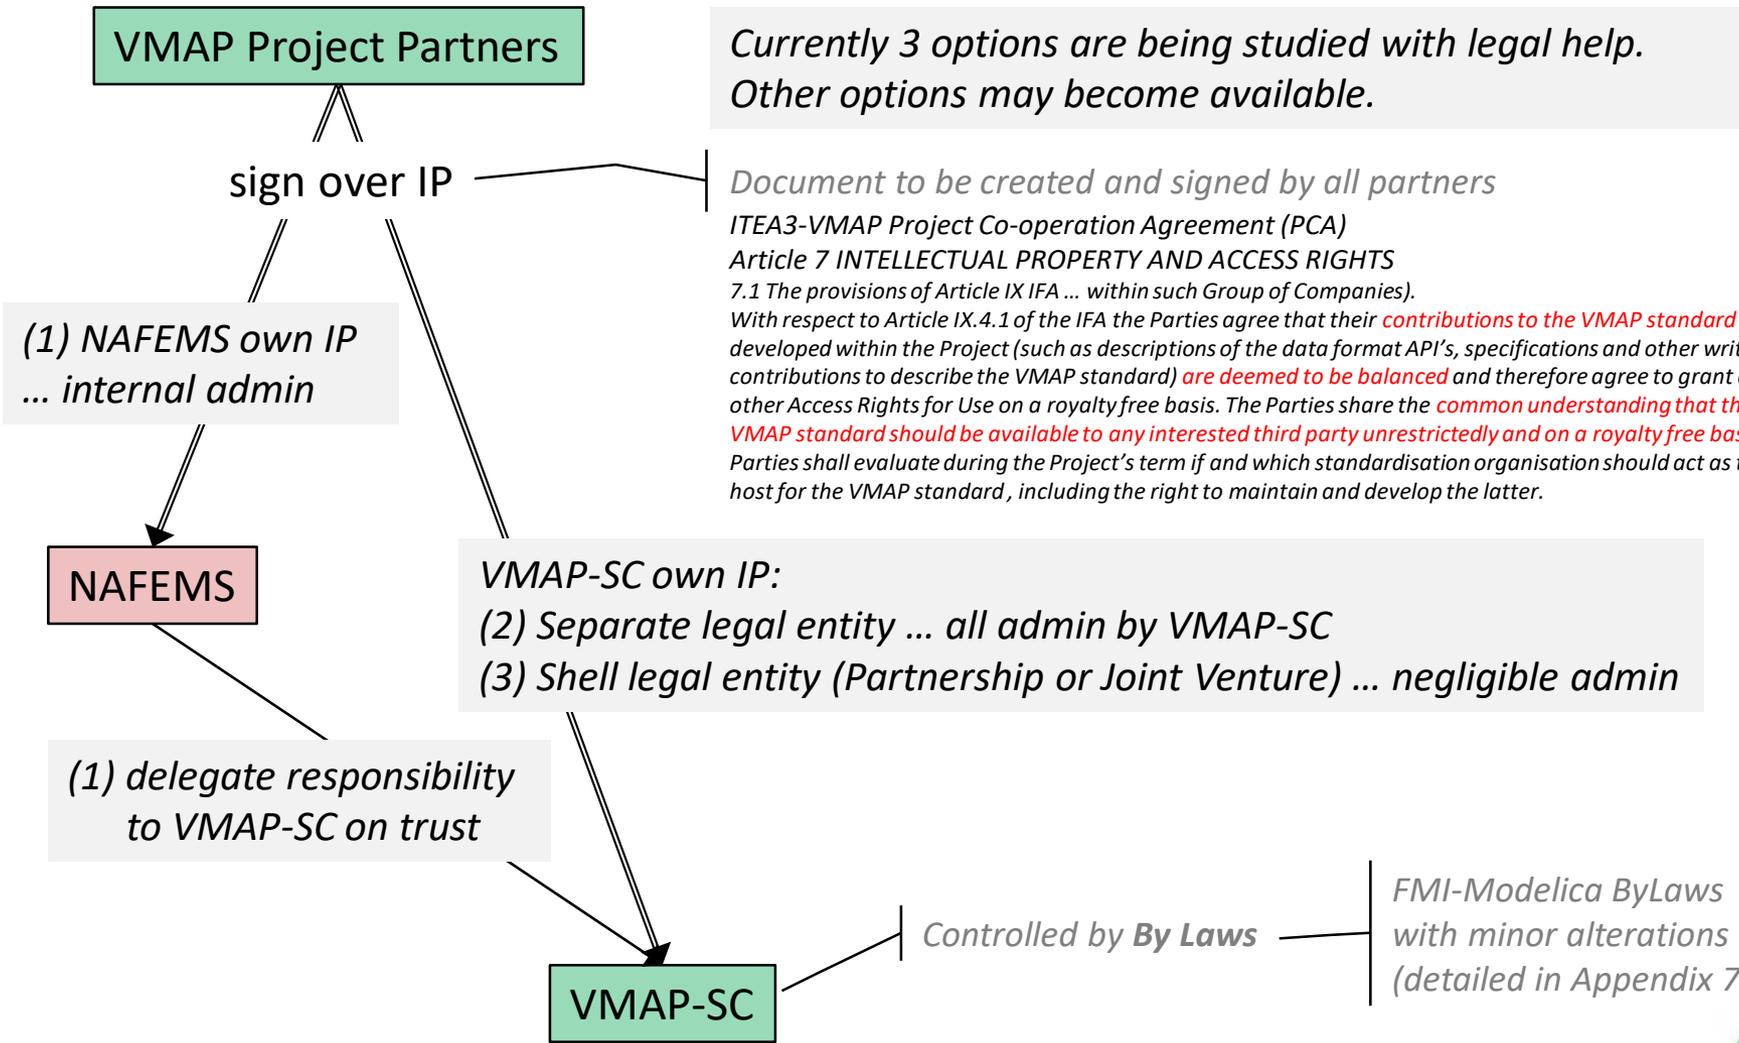

**Individual persons, companies, institutes, universities and other organizations who agree to work in accordance with the purpose of the association and follow the Bylaws of the association.**

(an organizational member has to appoint an individual person affiliated to the organization to represent the organization in all matters)

## 6. VMAP-SC... IP ownership

Currently 3 options are being studied with legal help.  
Other options may become available.

Document to be created and signed by all partners  
ITEA3-VMAP Project Co-operation Agreement (PCA)  
Article 7 INTELLECTUAL PROPERTY AND ACCESS RIGHTS  
7.1 The provisions of Article IX IFA ... within such Group of Companies).  
With respect to Article IX.4.1 of the IFA the Parties agree that their **contributions to the VMAP standard** to be developed within the Project (such as descriptions of the data format API's, specifications and other written contributions to describe the VMAP standard) **are deemed to be balanced** and therefore agree to grant each other Access Rights for Use on a royalty free basis. The Parties share the **common understanding that the VMAP standard should be available to any interested third party unrestrictedly and on a royalty free basis**. The Parties shall evaluate during the Project's term if and which standardisation organisation should act as the host for the VMAP standard, including the right to maintain and develop the latter.

## 6. VMAP-SC... Budget

### VMAP-SC

- “Guestimated” budget €117.000 per annum
    - Fraunhofer SCAI for Technical Management
    - NAFEMS for administration
      - Databases & Management (membership, collaborators, users, etc.)
      - Website, Leaflets
      - VMAP-SC Meetings (web, face-to-face)
      - Webinars, Workshops (limited), etc.
      - No (or very limited) budget for Symposia and Conference
  - Financed by
    - Membership fees
    - Website, Conferences, etc.
    - Possible VMAP analytics project
      - Overlap of some tasks
- Members could possibly advertise on web  
Int. Conf. on Interoperability (zero in 2020)*

# 6. VMAP-SC... Annual membership fee

VMAP-SC

- **Membership**
  - by application
  - approved by Assembly
  - all VMAP Project Leaders must be members
  
- **Annual membership fee**
  - can be changed at Assembly
  - no payment, no vote

*Application, acceptance, rejection templates in Appendices 3, 4, 5*

*Fees defined in Appendix 6*

*proposal, not confirmed  
Any comments?*

VMAP-SC annual fee	DRAFT		15/04/2020
	Organization size		ISV
Individual		300 €	
Company	1-9	300 €	600 €
	10-99	600 €	1.200 €
	100-249	1.000 €	2.000 €
	250 and above	3.000 €	6.000 €
Research Institute	(per institute)	600 €	
Research Organization		3.000 €	
Univeristy		3.000 €	

## 6. VMAP-SC... Timescale

<b>18 March 2020</b>	Agreed VMAP Standards distribution to 3rd parties	<b>AGREED</b>
<b>31 March 2020</b>	Confirm VMAP Package, Distribution tasks	<b>DONE</b>
<b>April 2020</b>	Distribute VMAP Package to initial users	<b>STARTING</b>
<b>31 May 2020</b>	Decide IP ownership ·NAFEMS ·VMAP-SC legal entity ·Shell legal entity (Partnership or JV)	<b>IN PROGRESS</b>
<b>June 2020</b>	Legally create VMAP-SC Agree VMAP-SC near-future budget	
<b>July 2020</b>	Move VMAP partners into VMAP-SC Decide VMAP-SC Board (VMAP project partners)	
<b>September 2020</b>	Sign project IP over to VMAP-SC	
<b>October 2020</b>	Invite new members into VMAP-SC ·Define contributors, users, experts	
<b>October 2020</b>	End of VMAP project	
<b>November 2020</b>	<i>Hopefully include</i> VMAP-analytics project partners	
<b>March 2021</b>	VMAP-SC Assembly meeting
